

The perfect solution for remote soft proofing

- ✦ You are a digital photographer, a scanner operator or you do color corrections.
- ✦ You have many clients who wants to see what you see on screen.

YOU NEED A SOLUTION TO SHARE SOFT PROOFS WITH CLIENT?

PerfX Color Vision™ is your solution!

PerfX Color Vision™ allows to share soft proofing document (PDF) so that you clients can see what you see on you monitor. A special control function warns the client if all colors can be displayed accurately on his monitor. A colored mask over the soft proof, show the client's monitor limitation in that case.
